

Contest Hopefuls

Proudly displaying a trophy they've already won, the Plano High School Planettes are busily drilling for the upcoming Blue and Gold Drill Team Contest, which will be hosted by East Texas State University Saturday. The Planettes will

be competing with close to 40 other top drill teams, and the competition in Commerce is open to the public, with tickets priced at 50 cents. (Staff photo by Mike Newman).

On Rare Materials

Price Controls End

WASHINGTON (UPI) — The Cost of Living Council has dropped price controls on tires and scarce petrochemical materials, while leaders of three major industries want all the government's wage and price controls to expire April 30 as scheduled.

John Dunlop, director of the council, said Wednesday the industry agreed to limit price increases for tires until just before the 1975 model cars come out. Dunlop said controls were dropped from petrochemical stocks because of shortages of the crude oil from which they are made.

The five largest tire companies—Goodyear, Firestone, B. F. Goodrich, Uniroyal and General—agreed to limit wholesale price increases to 5 per cent and to hold retail hikes on prices of tires for small cars to 4 per cent until Aug. 1. "Granting this exemption to the tire industry should provide maximum operational flexibility and incentive to accelerate the shift of production to new types of tires in heavy demand," Dunlop said.

707 Jet Crashes In Samoa

NEW YORK (UPI) — A Pan American 707 with 101 persons aboard crashed in flames today near the village of Pago Pago on the American Samoan island of Tutuila, a company spokesman reported in New York.

The spokesman said the pilot radioed that there were survivors among the 10 crewmen and 91 passengers but the number was not known.

He said the pilot, a Captain Leroy Peterson of San Francisco, told the control tower before the crash that there was a fire on board. The plane hit on land 1,000 yards short of Runway No. 5 and burst into flames. There were rain squalls at the time.

A Pan American plane crashed into the sea off Papeete, Tahiti last July 23 shortly after takeoff, killing all 79 passengers and crew aboard.

The American Samoans are about halfway between New Zealand and the Hawaiian Islands. The plane was en route to Los Angeles from Auckland, N.Z., with intermediate stops at Pago Pago and Honolulu.

explaining that an increase in small car tire prices would be an incentive to raise production.

Petrochemical stocks, derived from crude oil, are used as raw material in the manufacture of tires, medicine, plastics, vinyl and other industrial, commercial and consumer products.

BY JACK HARKRIDER
Editor

After at least three official meetings produced nothing but a stalemate, County Judge W. G. Proctor made it possible for sheriff's investigator Jerry Kunkel to get paid this month.

Following an emergency session of the Collin County Commissioners Court late Wednesday afternoon, Judge Proctor broke a 2-2 deadlock by signing a court order authorizing County Auditor Bill Eubanks to pay Kunkel for his work this month.

None of the commissioners seemed willing to discuss why two of them refused to approve of Kunkel's assignment as an investigator for the Sheriff's Dept.

In fact, each commissioner present at the Wednesday meeting—Carl Marion, Bailey Dickerson and Raymond Jenkins—was reluctant to even say who had or had not signed the court order authorizing the issuance of Kunkel's paycheck.

During the meeting, Marion made it very clear that he had signed the court order.

"I signed it," he stated. "As far as I'm concerned, we approved it back during budget time when we authorized him (Sheriff George Smith) to hire some more people. I'm not going to sit here and tell him who I can and can't hire," he added.

It was only after the meeting that Dickerson and Jenkins would admit that they were the two commissioners who refused to sign the court order—and those admissions came after direct questions from newsmen.

Jenkins at first declined to even say whether or not he had signed the court order, but later admitted he had not signed it. Dickerson readily admitted he was not one of the signers, but refused to

Energy Stressed

Message Avoids Watergate

WASHINGTON (UPI) — President Nixon's State of the Union report offered a 10-point list of legislative goals led by an effort to "break the back of the energy crisis."

The word "Watergate" was not mentioned in the 25,000-word report that accompanied the State of the Union address but seemed apparent in proposals for campaign reform and a revision of governmental and private practices affecting the right of privacy. In the 51-page document, delivered to Congress at the same time as Wednesday's address, Nixon said, while making it clear that he has no intention of resigning, "the chief legacy that I hope to leave from the eight years of my presidency," was a structure of world peace for generations to come.

Nixon's legislative goals:

Aim is Self-Sufficiency
—To "break the back of the energy crisis" by providing emergency powers to cope with energy shortages and begin the longer-range project of achieving self-sufficiency in

energy resources.

—Continue work toward lasting peace in the world by negotiations with adversaries and assisting in the achievement of a lasting settlement in the Middle East.

—Check the rise in consumer prices, which Nixon conceded was the darkest spot in the economy.

—Establish a new health insurance system "that makes higher quality health care available to every American in a dignified manner and at a price he or she can afford."

—Continue the "new

federalism" program by cutting federal red tape and furnishing revenues to state and local communities to make their own decisions.

—Provide funds for local communities to solve their own transportation problems.

—Reform federal aid to education to permit local communities more flexibility so that money will go "when it is needed, where it is needed."

Rights Redefined
—A new definition of the rights of privacy both of individuals and organizations. He said he

had ordered a Cabinet-level review of the conflicts that arise and the balances that must be struck between the rights of privacy and the pursuit of justice.

—Reform of current welfare regulations that he said "bleed the taxpayer, corrode the community and demean those it is meant to assist."

—Working out new economic relationships with international trading partners so that U.S. goods will get a better break in world markets.

On Roads

Improvements Due

Reconstruction of the

grade separation of Dallas North Parkway and purchase of the right of way for SH 78 between Blue Ridge and Rannin has been included in a three-year, \$250 million statewide program approved recently by the Texas Highway Commission.

Local engineers plan to widen the structure over U.S. 75 to accept Dallas North Parkway traffic from west and east one-way streets. However, a State Highway Dept. spokesman was unable to say how many lanes would be added to the Parkway bridge.

Statewide, the 1975-77 Consolidated Highway Program provides for construction or reconstruction of a total of 2,036.1

miles of rural and urban highway facilities.

Estimated cost of construction is \$235 million.

The program also includes \$15 million for the state's share of right of way costs for U.S. and state highways across the state. Included were needed projects in both urban and rural areas.

Projects were recommended for inclusion in the statewide program by the 25 Highway Department district offices and by the Houston Urban Project office in Houston for the areas they serve, in cooperation with local governmental agencies.

The projects are included as a result of local governmental request to the district engineer, as a result of appearances by delegations

of citizens before the Highway Commission and by the local district engineer's knowledge of the needs of the highway network in his area.

Also considered are the condition of existing facilities, existing and projected traffic, safety and planned area development.

Recommendations are reviewed by the Highway Department administration in Austin and approved by the Highway Commission to insure the continuity of highway designs and to insure the logical and orderly development of statewide highway systems.

Approval of a highway program means project planning can be started on the individual projects in the program.

Investigator Gets Salary

Emergency Meeting Needed to OK Money

explain why, when he was informed he might be quoted.

"I'd rather not comment on that," he stated. "It's not a personal reason. I'll say that—there's nothing personal in it."

Monday, the commissioners court was faced with the same situation, but at that time, Marion and Odell Rushing agreed in the

regular court meeting to sign the court order. However, Dickerson and Jenkins refused by abstaining from voting, and Judge Proctor refused to break what was considered to be a tie vote.

Again, in Wednesday's special meeting, District Attorney Tom O'Connell of Plano appealed to the court to give him some indication

as to whether or not he could expect a pay raise and an assistant in the near future.

He got an agreement from the court to give him a \$300 per-month increase in salary for this year, but no assistant.

In making his request to the court, O'Connell commented, "All I wanted to know is whether or not the county could do it (grant a pay increase and an assistant), so I could take that into consideration about whether or not I refile (this is an election year for the district attorney). I'm not looking for an ultimatum or a guarantee," he added.

In response to a question from one of the commissioners, County Auditor Bill Eubanks revealed that in an informal survey of surrounding counties, he found the highest-paid district attorney make approximately \$3,000 more than the state-paid \$15,500

O'Connell is now receiving.

"Well, I had it figured at around \$300 a month, which would be a little over \$3,000," Marion commented.

"I had it figured at \$3,000," Jenkins added.

After more discussion, Marion stated he felt the court should give O'Connell a raise of \$300, then look to giving him an assistant in 1975.

"Carl, you mean that \$300 only if he runs, right," queried Proctor.

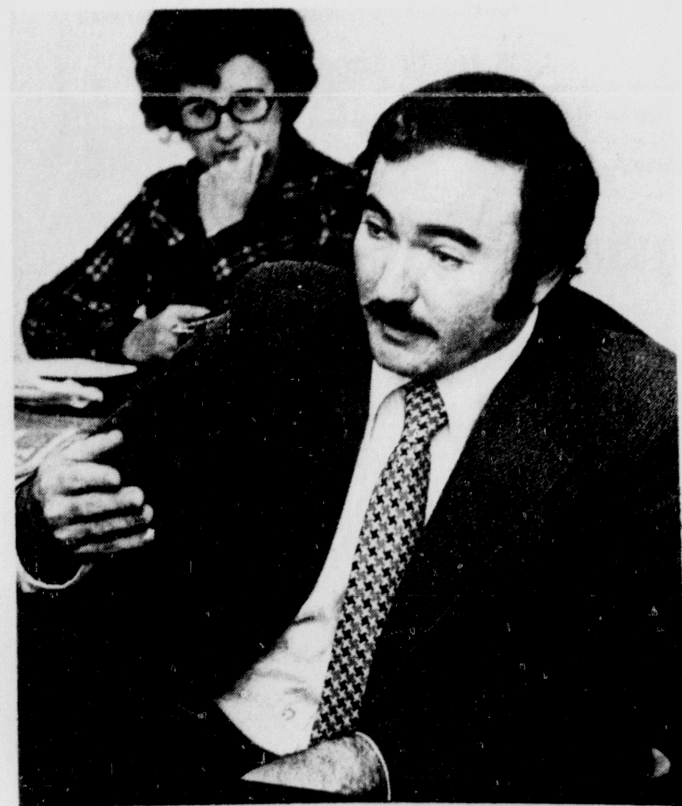

"No," Marion replied. "He has another year whether or not he runs."

The commissioners then unanimously approved the raise, on a motion by Marion.

The move apparently was satisfactory to O'Connell, since his office called the Star-Courier this morning to reveal that he will seek reelection as district attorney. A formal announcement and statement is due later.

Sheriff George Smith (left) and District Attorney Tom O'Connell, both from Plano, appeared before the commissioners court in an emergency session late yesterday afternoon to discuss salaries and personnel. Smith got ap-

proval for a special investigator, and while O'Connell didn't get the assistant he was seeking, he was given a \$300 per-month salary increase. (Staff photos by Mike Newman).

Briefs

All Are Taxable

LONDON (UPI) — When Baroness Summerskill learned that prostitutes have to pay income tax on their earnings, she suggested in the House of Lords Wednesday that their clients should be subjected to Britain's value added tax.

Another member of the House of Lords, Viscount Tenby, asked whether "this means the government is living on the immoral earnings of prostitutes."

Lord Aberdare replied: "Under Schedule D, all trade activities are taxable."

He Had A Reason

BEDFORD, England (UPI) — Police caught old-age pensioner Cyril Swann setting fire to some rubbish and arrested him.

In court he told the judge he set the fire so he would be sent to jail because he had nowhere to live.

The judge returned him to his cell pending welfare reports.

Costly Protest

SALT LAKE CITY (UPI) — It cost the Rev. Robert Lee Harris the price of about 100 gallons of gasoline to protest high fuel prices.

Rev. Harris, pastor of the Church of God and Christ Congregational in Ogden, Utah, parked his car in the middle of the busy downtown intersection Tuesday and laid down in the street to protest increasing gasoline prices.

When police arrived he refused to move and was cited for illegal parking and failure to obey an officer.

City Judge Floyd Gowans fined Rev. Harris \$55.

May Set Mark

CIRCLEVILLE, N.Y. (UPI) — When the 800 youngsters at the Circleville Elementary School couldn't find a record for the world's largest pie in the Guinness Book of World Records, they decided Wednesday to establish the mark.

And what a mark—40 pounds of flour, 16 bushels of apples, 1½ gallons of milk and 24 pounds of shortening.

Later, the students had a five-foot wide, two-foot deep pie.

The children baked the pie in a specially constructed oven in the school's parking lot. A notary public was scheduled to examine the pie today before it is eaten.

Warren Better

INGLEWOOD, Calif. (UPI) — Doctors report former Chief Justice Earl Warren, 82, hospitalized five days ago for treatment of a heart ailment is "much better" and probably will return home soon.

"He looks very good," a spokesman for Daniel Freeman Hospital said Wednesday. "He is in good condition and steadily improving, but he is still not receiving visitors because they want him to get as much rest as possible."

Warren is permitted visits only from members of his immediate family.

Twiggy to Marry

LONDON (UPI) — Twiggy is getting married. A spokesman for the British model, whose real name is Lesley Hornby, said Wednesday she will marry American actor Michael Witney as soon as his divorce comes through.

Twiggy, 24, and Witney, now in Malibu, Calif., first met on the set of their new film "W", Twiggy's first Hollywood role. Last year Twiggy ended her romance with Justin de Villedenue, the man who turned her from a gangling schoolgirl into a top model during the late 1960s.

Witney, 35, is separated from his wife Joan and waiting for a divorce. They have no children.

Royal Family Visits

CHRISTCHURCH, N.Z. (UPI) — Queen Elizabeth II and other members of the British royal family began a visit to New Zealand, Papua-New Guinea and Australia Wednesday.

The Queen, accompanied by her daughter Princess Anne and Captain Mark Phillips, arrived in Christchurch and was greeted by New Zealand Prime Minister Norman E. Kirk.

She also was greeted by the Duke of Edinburgh Prince Philip and Prince Charles. "This is certainly a family gathering," Queen Elizabeth said. "We came by different routes and by different means."

Our Weather

North Central and Northeast Texas — Partly cloudy tonight and Friday. Turning colder north late today, central and west tonight and over area Friday. Low tonight 28 north-west to 50 southeast. High Friday 55-70.

Longview Man Files

Glasgow Runs for Senate

James E. Glasgow of Longview has announced his intention to file for the office of State Senator, District II, in the Republican Primary. The district includes the counties of Collin, Gregg, Hunt, Rains, Rockwall, Smith, Upshur, Van Zandt and Wood.

Glasgow is president of Cooper & Company Inc., a stock brokerage firm headquartered in Longview, and he now represents the senatorial district on the state Republican executive committee. His recent work has been to seek out public-spirited citizens to run for office on the Republican ticket.

In recent appearances seeking candidates in Plano, Tyler and Longview, Glasgow said, "Texas needs in office the kind of people who volunteer to work in their churches, and the kind of people who volunteer to work in civic clubs."

"We urge you, also, to take part in Republican party functions," he said. "We are controlled by majority vote."

To cut, slice or chop baking chocolate or chocolate candies, have them at room temperature to make the chore easier.

from the precinct level on up. You can have the kind of political party you want, simply by taking part," Glasgow added.

"I hope," he stated, "Other public spirited citizens will follow my example and offer to serve in public office."

Glasgow intends to run a positive campaign, and to "run hard."

Long an advocate of the two-party system for Texas, he said, "Many years ago, the Democrat party truly represented the people of America and the people of Texas, but that was many years ago. Today, the Democrat party, nationally, is led by Eastern liberal Democrats and the Texas Democrat party is moving rapidly in the same direction," he claimed.

Glasgow and his wife, Gerry, live at 509 Young St. in Longview. They moved from Dallas in 1965 when their twin sons, Tim and Mike were seniors in high school.

"We were not transferred," Mrs. Glasgow relates. "We just wanted to get out of the big city and back to my native East Texas. The family voted unanimously to move to Longview where Jim's firm did have a branch office."

Glasgow grew up in Arkansas and attended the University of Arkansas. He has served in the U. S. Marine Corps. The family are members of the First Presbyterian Church in

NTSU Sponsors Music Recital

Two of the North Texas State University School of Music's four artists-in-residence will appear together on the same program at 8:15 p.m. Tuesday, Feb. 5, in the NTSU Music Recital Hall.

Violinist Robert Davidovici, who joined the NTSU faculty in late November, will appear in a joint concert with pianist Stefan Bardas. The concert is open to the public with no admission charge.

The two will perform three selections for piano and violin, Mozart's "Sonata for Piano and Violin in B Flat, K 454;" Debussy's "Sonata for Violin and Piano" and Beethoven's "Sonata for Piano and Violin in A Major, Opus 47 Kreutzer."

Davidovici, 27, winner of the 1972 Naumburg String Competition, is making his first concert appearance in this area. Born in Rumania, he emigrated to Australia in 1962, and married an Israeli a year ago. He was scheduled to begin teaching at NTSU in September, but visa problems delayed his arrival until late fall.

In contrast to Bardas, who was practically born under a piano bench in Berlin of musical artist parents Davidovici is the son of two college professors. His father teaches languages, and his mother math, physics and chemistry.

A graduate of the Conservatorium in Sydney, Davidovici won first place in the Commonwealth Finals in 1967, and was granted a scholarship to Juilliard School the same year. He has taught at Juilliard, the Sydney Conservatorium and Meadowmount School for Strings.

Firefighters

Answer Three Calls

Plano police investigated two thefts Tuesday.

Those reporting thefts were Capital Wire and Cable and Alton Allman. Allman said that \$700 worth of steel was taken from 3100 Lynnbrook.

Police also arrested two persons: one for disorderly conduct and another for no driver's license and an expired motor vehicle inspection sticker.

Plano firefighters answered three calls Tuesday.

The department put out a chlorine fire at the city sewage plant at 9:21, a grease fire at 1521 Westlake at 6:02 p.m. and a car fire at Rowlett Creek at 4:35 p.m.

IRS Rules

Exemption Allowed

Do you have either a son or daughter attending a school? If so, do you know whether or not you can claim your child as a dependent on your tax return?

If your child was under 19 years of age in 1973, or was a student at a recognized educational institution or in an accredited on-farm training -- no matter what age -- for at least five calendar months in 1973,

then you might be able to claim an exemption for that child.

As long as you have supplied over half of your child's total support during the year, the exemption may be claimed. This is true even though your child claims himself as an exemption on his own and no matter how much gross income he had during the year.

Also, your child must

qualify under the three other rules before you can claim an exemption: the relationship test, the citizenship test, and the joint return test.

The student will meet the relationship test if he or she is a son, stepson, daughter, or stepdaughter of the taxpayer, or of one or both taxpayers in the case of a joint return filed by the parents.

If the taxpayer is a citizen of the United States then the citizenship test is met by the child. This also applies to children legally adopted by the taxpayer if the child's principal place of residence is that of the taxpayer.

The joint return test applies only if your son or daughter is married. Your child and his or her spouse must file SEPARATE returns if you are to be eligible to claim your child as an exemption and your child is also claiming himself as an exemption. You, however, may still file a joint return.

This is an example of the information which can be obtained by attending the "You and Your Income Tax" course sponsored by the Dallas Chapter of Certified Public Accountants, Internal Revenue Service, the Plano ISD adult education division, and the Plano Star-Courier as a public service.

Classes will be held Tuesday and Thursday, Feb. 5 and 7, between 7 and 10 p.m., at Plano High School, 1717 17th St.

Instructors are voluntary CPAs who are experienced in tax return preparation. The Internal Revenue Service furnished the course material including the informative booklet, "Your Federal Income Tax." A cost of \$1 per person or \$1.50 per couple is charged for this purpose.

In order to register for this course, send your name and address and registration fee to the Dallas Chapter of CPAs, 2638 Republic National Bank Bldg., Dallas, 75201.

Group Offers Grad Fellowship

Alpha Xi Delta, national social fraternity for women, has announced that again this year, that organization is offering a \$2,500 graduate fellowship for advanced study in the field of Social Service.

The award has been made annually since 1959.

Alpha Xi Delta offers this fellowship in support of the belief of civic authorities and juvenile court officials that

an increasing need exists for qualified professional personnel to work with children and youth in preventing juvenile delinquency.

The local philanthropy supported by the Dallas Alumnae is Callier Hearing and Speech Center in Dallas. The organization supports the Center by supplying funds and doing volunteer work.

To be eligible for the fellowship, an applicant must be a graduate of an accredited college or university; have a grade of average of B or above; have applied or been accepted for admission to a graduate school of Social Work; and be interested in pursuing a career of work with children or youth to combat delinquency in the United States.

Interested person may obtain an application form for this fellowship from Mrs. H. Raymond Clark, 13751 Sprucewood Dr., Dallas, 75240, or Mrs. Virginia R. Herzog, 12803 Midway Rd., No. 2124, Dallas, 75234.

Completed applications must be mailed in time to be received by the deadline of Feb. 15. Mailing address is Alpha Xi Delta Fraternity Headquarters, National Philanthropy Committee, 3447 N. Washington Blvd., Indianapolis, Ind. 46205.

Special Meeting

Lovejoy Needs Help

Efforts will be made to try and breathe life back into the faltering Lovejoy Common School District in a

Letter to The Editor

Dear Sir:

As a homeowner in the Ridgewood sub-division and as one of the eighty-five people who signed the petition presented to the city council Monday night, Jan. 28, I was very surprised at the utter lack of interest and apparent disregard the council had for the wishes of the homeowners who signed it.

It is my contention that the people who signed the petition are entitled to some consideration and to some representation by the council members.

Very truly yours,
Tina C. Duffy

special called meeting Friday night.

Discussion on the future of the district will be one of the items on the agenda when the board meets Friday night at 7:30 p.m. in the school building.

Due to the recent settlement of a tax suit, the district was forced, under a court order, to revert back to the county tax rate rather than the rate they had been charging. This put the school district operating at a \$20,000 deficit annually.

One of the items which is costing the school the most money is tuition. For the first time, McKinney, Wylie and Allen schools are charging an average of \$300 per student for out of district enrollees, and this applies to almost 150 students. In other words, tuition is costing the school district around \$45,000 annually.

This tuition fee will also be discussed by the board.

Lovejoy trustees will study the appointment of a fact-finding committee to secure information relative to taxes in adjoining school districts.

They will also vote on the retention of the McKinney Law Firm of Boyd, Veigel and Gay to represent the school district in further legal matters.

Also relative to the settlement of the suit will be the discussion of further called meetings for the purpose of refunding tax monies as per the settlement judgement.

School board member J.R. Ellis will submit his resignation to the board at the meeting, and Bruse Allen will be appointed to fill the vacancy.

Energy Talk

State Senator Peyton McKnight (c) of Tyler spoke with William Simon (l.) Presidential Energy Advisor, during Simon's recent visit to Texas. After Simon's address before the Governor's Energy Advisory Council, McKnight, who represents Plano, gave Simon a copy of Senate Resolution 4,

adopted during the recent special session of the legislature. McKnight's resolution urged Congress to take constructive action to deal with both short and long range energy problems.

Arab Boycott May Lift

Nixon Asks Priority on Oil

WASHINGTON (UPI) — President Nixon has asked Congress to make its first priority to "break the back of the energy crisis" and indicated there is a distinct possibility the Arab oil boycott may be lifted in the near future.

In his State of the Union message, delivered to a joint session of Congress Wednesday night, Nixon said he wanted Congress to know he wanted passage of energy legislation he has already requested "the first priority" of the current congressional session.

He said "1974 must be the year in which we organize a full-scale effort" to meet projected energy needs and the country should set a goal of being self-sufficient in energy production by the decade of the 1980s.

But he warned that even if the Arabs do end their boycott, it will not solve the nation's energy problems.

"If the embargo is lifted," he said, "it will ease the crisis. But it will not mean an end to the energy shortage in the United States."

Meeting Will Be Called Speaking of the possibility of an end to the embargo, imposed at the time of the Oct. 1973 Mideast war, Nixon said: "I have been assured through my personal contacts that an urgent meeting will be called in the immediate future to discuss the lifting of the oil embargo."

In his speech asking for congressional approval of several energy measures, Nixon said: "Let us do everything we can to avoid gasoline rationing in the United States of America."

Among the proposals he recommended to Congress were:

—A special energy act which would allow additional

restrictions on energy consumption and would postpone temporarily some environmental restrictions on air quality and automobile exhaust emissions.

—Mandatory reporting by major oil companies of their inventories, production and reserves.

—Unemployment insurance for workers in areas with "serious economic dislocation" caused by the energy situation.

—A "windfall" profits tax on the oil industry which would "prevent private profiteering at the expense of public sacrifice."

Bill Forced Back

It was the windfall profits section of already approved emergency energy legislation, strongly opposed by Nixon and the major oil companies, that forced that bill back to a joint House-

Senate conference committee.

Some members of Congress, led by Sen. Henry M. Jackson, D-Wash., want a windfall profits tax that is passed on in lower prices for the consumer. The administration, however, is pressing for a windfall provision that would be plowed back into exploration for new oil resources by the companies.

Jackson Wednesday met with Rep. Harley Staggers, D-W.Va., chairman of the conferees, to explore what might be rescued from the faltering legislation.

In other energy develop-

ments:

—The government announced it will increase allocations to truck stops and expedite truckers' requests for higher freight rates to absorb the increased cost of fuel.

—House Speaker Carl Albert joined the growing number of members of Congress calling for repeal or modification of the year round daylight saving time law.

Richland Plans ACT Workshop

The American College Testing Program will hold a workshop Monday, at Richland College for educators and counselors in the Dallas metropolitan area.

The workshop will focus on providing an interpretation of the new and changed information in the ACT Assessment, discussing the practical applications of ACT Student Profile Reports and information concerning recent and/or future unique educational programs in selected post-high school institutions in Texas.

Other topics will include information concerning financial aid programs and ways Texas college bound students have changed in five years.

The day long program will begin with registration at 8:45 a.m. in the Richland Fine Arts Bldg., 12800 Abrams Rd.

Foreman Fight Final

'With me there ain't no next time'
- Foreman

By BOB STEWART
UPI Sports Writer
NEW YORK (UPI) — ...And now the official world heavyweight champion is committed to a title defense, while the unofficial, self-designated "peoples' champion" waits.

George Foreman, the champion on a stunning two-round KO of Joe Frazier last January, agreed in full Wednesday to put the crown on the line March 26 in Caracas, Venezuela, against the man who broke Muhammad Ali's jaw, Ken Norton.

The money will be nice for George and Ken—\$700,000 guarantee for the champion, \$200,000 for Norton—but that is chicken feed to what the winner will draw against Ali.

In the euphoria of Ali's

narrow 12-round decision over Frazier Monday night, men who run the fights said Ali and Foreman could draw \$5 million, or \$10 million, or name any figure you want—but the same men and Ali quickly admitted that it was far, far too early to get serious about negotiating.

Foreman, all 247 im-

pressive pounds of him, said he was looking forward to facing Norton, although he is

totally confident he can not only beat the ex-Marine, but put him away for good as well.

"You know," George said, "everybody who fights Ali fights him again and again, always saying 'Next time I'll get him.' With me, there ain't no next time. When they lose to me, they don't wanna go back in there with me again."

For his part, Ken talks

quietly and convincingly about his own approach to the title matchup.

"Fighting Ali and fighting George are two different things," he said. "Against Ali, it's like a chess match. Look for the opening, don't make mistakes. Against George, well he is the classic slugger. You can't fight him the way you would an Ali. I have to find a way to nullify George's power."

Texan In Golf Finals

HARLINGEN, Tex. (UPI) — Curtis Person of Memphis, Tenn., meets Bill St. Clair of Muleshoe, Tex., today in the premier match of the quarterfinal round of the 22nd annual Life Begins at 40 Golf Tournament.

Person, seeking his fifth title in the tournament, offset two bogies with two birdies Wednesday and coasted to a six-and-four triumph over 1953 champion Cy Derby of Harlingen.

St. Clair beat Ben Trevino of San Antonio, 1-up, in one of Wednesday's most exciting matches.

Medalist Fred Rohde of San Antonio and 1973 runner-up Henry Richards of Jacksboro were among Wednesday's losers. Rohde fell to Bill Rudd of Waskom, Tex., 1-70, and Richards lost to 1965 champion Dutch Kunstler of Victoria, Tex., 2-up.

Other results from Wednesday's matches were Lou Button of San Antonio over Bill Saunders of Austin, 3-and-2; Dr. John Case of San Antonio over John Gimma of Gulfport, Miss., 1-70; Bill Coffey of Fort Worth over Dick Stewart of San Antonio, 2-and-1, and Dr. John Kennedy of Mt. Pleasant over Robin Forrester of Santa Rosa, Tex., 1-up.

Wyman Picked In Sixth Round

All-America center Bill Wyman of Texas, the 135th player picked in the NFL draft and only the second player from the Southwest Conference chosen, says he has no complaints.

"I'm satisfied with where I was picked," Wyman said Wednesday. "I'm real glad to hear it."

Wyman was picked in the sixth round by the New York

Jets. "I think the Jets have a good organization," Wyman said. "They are rebuilding right now. It's a good opportunity for me."

"They want me to play center. I'm going to New York Friday to look things over."

Wyman was the fifth Texas collegian picked in the draft and the first chosen in Wednesday's rounds. Andre Tillman, the Texas Tech tight end picked by Miami in the second round, was the first Texan chosen in the draft.

Rice and Texas Christian each provided four players in the pro draft to lead Texas schools in that department.

Rice sent wide receiver Carl Swierc to Miami in the seventh round, wide receiver Edwin Collins to Baltimore in the 14th round, defensive back Bruce Henley to Pittsburgh in the 14th round and defensive back Preston Anderson to Cleveland in the 16th round.

Southern Methodist and Texas-Arlington had three players drafted, Texas Tech, Texas, West Texas, Texas Southern and Southwest Texas had two players and Houston, Abilene Christian, Prairie View A&M, Texas El Paso and Angelo State each sent one.

Battrick To Wit

PITTSBURGH (UPI) — Gerald Battrick, 26, Great Britain's third-ranking male player, Wednesday signed with the Pittsburgh Triangles of the new World Team Tennis (WTT).

Battrick was the first member of the Association of Tennis Professionals to sign with the Triangles. The ATP last week withdrew its objection to members signing with WTT teams.

Army Football

Means No 'Pro'

WEST POINT, N.Y. (UPI) — Homer Smith, the U.S. Military Academy's new head football coach, is under no illusions.

To play football at Army, a high school athlete must commit himself to a five-year tour of military duty following graduation.

"We will not be able to recruit players who have their heart set on pro football," the 42-year-old Smith acknowledged. "However,

we will recruit all others. We hope to expand our recruiting, reaching (geographical) areas we haven't reached before.

"I do expect some players to come to West Point talented enough to be drafted by professional football. Some great football players, however, were not great when they entered college. They were made. And that's what I'd like to do at West Point."

Smith, who was formerly head coach at both Davidson and Pacific in addition to serving as an assistant to Pepper Rodgers at UCLA last season, replaces Tom Cahill, whose contract was not renewed after the Cadets posted a 0-10 mark last season, climaxed by a humiliating 51-0 thrashing by Navy.

"I'm not bothered by the five-year commitment," added Smith. "I intend to take a positive approach to it. The five years is only a phase, a length of time."

"A boy is not only serving his country, but getting a better perspective on life and the experiences gained certainly will benefit him in the future."

Burrows

Injured

PITTSBURGH (UPI) — Pittsburgh Penguins defenseman Dave Burrows, will be out of action a minimum of 10 days due to a partial separation of the left shoulder and torn shoulder muscles sustained in the National Hockey League All-Star game, the club announced Wednesday.

Burrows, 25, was hurt in the third period of Tuesday night's All-Star game at Chicago. Mickey Redmond fired a shot for a goal and his followthrough caught Burrows on the upper arm.

SMALL WOODED TRACTS All utilities, creek. 10 percent down. 35 min. north. Owner. 368-1818 or 247-2148.

MUST SELL northeast of McKinney, north of Westminister. 59 acres, \$675 acre. 661-1078.

FOR SALE-8 1/4 acres with lots of trees, creek and pond. 4 miles east of McKinney. 1/2 mile off 380 on paved road. Beautiful home site. 234-3057.

By St. Louis

George Drafted

Last September Steve George thought his football career had collapsed around him. But football is still in the future of the 6 foot 6 inch 245-lb. defensive tackle from the University of Houston.

The St. Louis Cardinals of the National Football Conference chose George as their third round pick in the NFL draft Wednesday. George was the 58th player chosen.

George had been expecting the Atlanta Falcons to draft him. St. Louis obtained the draft choice that netted George from the San Francisco 49ers.

St. Louis and George have had dealings before. Last September when George was declared ineligible for football at the University of Houston by the Southwest Conference, he went to the Cardinals and secured a back-up role as defensive tackle.

George was slated to start for the Cardinals in late preseason when NFL Commissioner Pete Rozelle informed St. Louis George's contract was null and void because of fall football drills George had participated in at the University of Houston.

It was at that point Steve George had felt football was over in his future.

St. Louis took a chance on the Plano High School graduate and drafted him, even though George has not played a down of football since the fall Cougar drills and his own off-season program to keep in shape.

George could not be reached at the University of Houston by the Star-Courier Thursday for his comments.

-ED VOSS

Mike Patterson was the leading scorer for the Plano Wildcats in their 67-42 win over Denison Tuesday. Patterson scored 16 points. Friday the 'Cats travel to Greenville. (Staff photo by Mike Newman.)

Woods Drafted By Philadelphia

Bowman Junior High School physical education and football coach Robert Wood became the second local resident to be drafted in the National Football League.

Wood was the eighth round pick by the Philadelphia Eagles. In the third round of the draft Plano High graduate Steve George was picked by St. Louis. A graduate of Howard Payne College in Brownwood, the 6 foot, 3 inch 250-lb. was drafted as a possible middle linebacker.

Wood played linebacker with the HPC Yellowjackets.

"I was expecting to be drafted," Coach Wood said, "but I didn't think I would go that high in the draft."

Wood graduated from HPC at mid-term and began teaching at Bowman the spring semester.

Chicago 21

CHICAGO (UPI) — Right-handed pitcher Steve Stone Wednesday became the 21st Chicago Cubs player to sign for the 1974 season, leaving 17 of the 38-player roster unsigned.

Sherman Heads 13-AAAA

Bearcats 8-1 Record Best in Loop

Sherman remains at the top of the District 13-AAAA standings going into another series of basketball games Friday.

The Bearcats 8-1 record is the best in the conference and the only teams in challenging distance are defending champ Richardson at 7-2, Lake Highlands at 6-3, Plano at 5-4 and Pearce at 5-4.

Two teams can be ruled completely out of the running, Denison and Paris. It is very unlikely those teams will effect the district race by upsetting a major team.

One team that can hope for no better than a co-championship, Greenville at 4-5, can decide who wins the crown.

Greenville must win their remaining five games while

Sherman loses all five of their games. Very unlikely. But the Lions with 6 foot 8 inch Melvin "Lurch" Davis at the helm have the power to upset a few teams making a bid at the crown.

Plano travels to Greenville Friday and after the Wildcats narrow home win Jan. 8 they will be ready for a tough battle. Losing the game for Plano takes the most remote mathematican chance of taking the loop championship an impossibility.

Like Greenville, Plano has a key role in deciding who will win the crown. They already beat Richardson Pearce and have Sherman at home Feb. 12.

Should they win their remaining games and Sherman lose three games a co-championship is theirs. A lot of possibilities remain for six teams to win district.
